Health Outcomes

Health Factors

■ = needs some work
 ■ = better or equal to National Benchmark
 ■ = National Benchmark - 90th percentile (only 10% of counties are better)

→ = moving in the right direction
 → = moving in the wrong direction
 same = statistic has not changed since 2011 rankings

The County Health Rankings is a collection of 50 reports that reflect the overall health of the counties in every state across the country. This report has been made available through the effort of the University of Wisconsin Population Health Institute and the Robert Wood Johnson Foundation. A full report is available to online at www.countyhealthrankings.org
